

In the Claims:

Please amend claim 1 as follows:

---

- C<sub>1</sub>
1. (Twice Amended) A method of inhibiting vascular hyperpermeability in an individual comprising the step of administering to said individual a therapeutically effective amount of a compound that inhibits the cellular signaling function of KDR by disrupting the catalytic kinase response of KDR/VEGFR-2 without significantly affecting the activity of Flt-1/VEGFR-1 or other kinases.
-
